The Mughalsarai (MGS) Railway station in Uttar Pradesh has been renamed as Deen Dayal Upadhyay (DDU) station. Mughalsarai is the largest marshalling yard in Asia and is considered one of the oldest railway stations. The station came into being in 1862 when East India Company linked Howrah to Delhi by rail.

From Oct'17, Ante-Natal clinic (1<sup>st</sup> Pregnancy) on Wednesday functions in the morning 09.30 to 12.30 Hrs instead of Afternoon.

Shri S.Narendran, WM/Plant/Fur, has secured 3<sup>rd</sup> rank in 35<sup>th</sup> batch of "Diploma In Industrial Safety (2016-17)" conducted by Regional Labour Institute, Chennai.

ICF schools alumni trust conducted a Fun Science programme on 'Activity based Learning' at ICF School on 23.10.2017.

ICF PB staff met the employees at their workplace and permitted them to pursue their Service Registers.

## RECENT IMPROVEMENTS in ICF COACHES

LS Deen Dayalu coach was provided with single piece slip-free stainless steel flooring in the doorways which eliminates the joints to improve aesthetics. This will be further provided in other coaches.

The SPART Driver's Desk has been redesigned with LCD screens for displaying speed, notch position, engine parameters, transmission parameters, etc.

GPS tracker is now fitted in SPARTs to locate them while on move. SPARTs can be tracked by using a suitable App on a mobile phone

Double Ferrule Fittings are provided in Air brake pipe lines of LWSCN & LWACCN coaches.

Ministry of Railways awarded "1<sup>st</sup> Best Innovation Award" to South Central Railway in the category of Suggestion Scheme of Best Innovations by Indian Railways for the year 2016-17. SCR won the award for its innovative contribution in train operations with the idea of "Automatic Single Car Test Rig" developed by Carriage Work Shop, Lallaguda. This award comprises a cash prize of Rs.3 Lakh.

The second best innovation award was given to (RDSO), Lucknow.

Third best innovation award was given to Eastern Railways. Automatic Single Car Test Rig designed and developed by Carriage Work Shop, Lallaguda, is used to perform air brake testing on coaches to ensure proper functioning of Air Brake System. This is a portable machine which will give a power backup upto 6 hours. The existing manual Air Brake Testing System will consume more time and the testing parameters cannot be recorded whereas, the Automatic Single Car Test Rig minimizes the time for testing, avoids human errors, records the tested parameters and stores the data in the Database. The Automatic Single Car Test Rig is developed based on the Micro-Controller programming.

## An Epoch Memory

Administrative Office of ICF Shell Division as seen in 1954

### 'DENGUE' the threat of the town

Dengue, the word takes us aback when it is read or heard. It is the talk and threat of the town which has created panic among us. It is time for us to unite together and fight against spreading of the disease. Prior to that let us know about the facts about Dengue.

#### WHAT IS DENGUE ?

Dengue is a fever due to virus spread to humans by Aedis mosquito bite.

#### SYMPTOMS :

High grade fever (103°C) with headache, rashes, bleeds, vomiting and pain in the eyes, abdomen, joints & muscles with severe body ache.

#### DANGER SIGNS REQUIRING ADMISSION IN THE HOSPITAL

Permanent vomiting, severe stomach pain, cold/red palms & soles, drowsiness, refusal of feeds, bleeds, bruises and malena.

No urine output for more than 6 hours. This is the critical phase of DENGUE and all these symptoms appear from the 5th day of fever and needs close monitoring.

#### WHAT TESTS ARE TO BE DONE & WHEN TO DO THESE TESTS

First 3 days of fever, please do Complete Blood Count.

Most important to watch is the Platelets count. Please do packed cell volume and 'NS1 Dengue Antigen test.

If the fever persists for more than 5 days, please do Elisa Dengue Serology Test.

#### WHAT HAS TO BE DONE DURING DENGUE FEVER?

Treatment for Dengue fever is only supportive, since antiviral drugs against Dengue virus is not yet discovered.

Taking care of Dehydration Status + close monitoring is mandatory.

Monitor fluid intake & urine output once in 2 to 4 hours.

The patient should take adequate fluids.

World Health Organization has approved liquid ORS releyte electrol, ORS Ready Mix.

-Prevention, Do's And Don'ts about Dengue in the next edition

-Suseela Chandrasekaran, Chief Matron

Dengue awareness program was conducted by Scouts and SJAB on a door-to-door basis in the colonies on 22.10.2017

### Gurukulam (ICF Schools) Imparting Education for Students

#### ICF Silver Jubilee Higher Secondary School:

#### Extracurricular activities of the school - Continuation of previous edition

All work and no play make jack a dull boy. Sustained concentration on studies based on the examination point of view will create tedium among the growing children and hence the school pays attention for extra and co-curricular activities. Physical fitness of children is the need of the day and so the school encourages outdoor sporting activities viz football, volley ball, throw ball, hand ball, badminton and cricket, and indoor games viz, Table tennis, carroms and chess. Classes for Karate and silambam are conducted for fitness and self defence. The school monitors the health of the students by conducting Health camps by reputed hospitals once in a year free of cost. Besides, classes for music, dance and yoga are conducted which will help the students to keep their mind afresh. Apart from excelling in studies the children should cultivate good hobbies. In this endeavor, the institution has been organizing tailoring and embroidery classes on a regular basis.

The current society needs the participation of the students for the growth of our nation and thereby it becomes necessary for the school to create awareness among the students about the civic needs. In these lines classes on disaster management, traffic regulation, self discipline, clean environment, etc are imparted. Film shows about great leaders and freedom fighters are shown twice a year to inculcate the spirit of patriotism among young minds. A unit for National Service Scheme and Scouting activities is functioning to train the students and they conduct regular camps and teach the students to get along with the society and contribute the need with a service motto.

Further, the school has various allied facilities like rain water harvesting pit to save water resource and garbage compost storage to make natural manure. A CCTV system along with a two way PAS communication system has been installed and it helps the school administration to have a close observation at the students and helps the school head to converse with teachers onboard. Plenty of Fire extinguishers have been provided around the school for use during emergency. The school committee has installed a 10KWP solar power plant which increases the use of green energy. With all these facilities on hand it is needless to mention that the students will march towards their goal with ease.

- Transfer to ICF Higher Secondary School in the next edition

-M.G.Shanker, PRO
